

TRANSFEROLOGY

E Illinois

To learn which of your courses may transfer to Illinois or to find equivalencies to Illinois courses at your school, check out the nationwide database Transferology. By creating a free account, you can see all the courses we've reviewed for transfer from your college(s).

FIND A REPLACEMENT COURSE

The “Find a Replacement Course” feature helps you identify which courses at your current school will transfer to Illinois — either to meet required or recommended courses for admission (as found in the Transfer Handbook), or to make progress towards Illinois’ General Education requirements before you transfer.

1. Select **University of Illinois Urbana-Champaign** as the school you currently attend.

To find equivalents of required or recommended courses for admission:

2. Use **Courses** search – Search for course in Department (ex. PSYC); Select the specific course by clicking the + sign (ex. PSYC 100).
3. Select ‘Search for Matches.’
4. Type in the school you are attending and Search.
5. Click the blue box for the school you attend.
6. Transferology will show the equivalent course(s) to take at your institution.

To find equivalents of Illinois general education requirements:

2. Use **Requirement Categories** search – Select the category you are looking to find equivalent coursework in by clicking the + sign (ex. Gen Ed – Quantitative Reasoning I).
3. Select ‘Search for Matches.’
4. Type in the school you are attending and Search.
5. Click the blue box for the school you attend.
6. Transferology will show the equivalent course(s) in each category at your institution. Select ‘all’ in the drop-down menu on the left-hand side to see courses in all departments.

WILL MY COURSES TRANSFER?

Step 1: Get Started

- Go to [Transferology.com](https://transferology.com) and create a free account.
- Log in and enter your completed or planned courses. Start by selecting your current school and/or all institutions at which you have taken college-level courses and search for each course. Select the school, course category, and find the course. You will need to select the correct term the course was taken.
- Click the + to add courses to your “shopping cart.”

Step 2: Find Your Matches

- When your courses are in the cart, click “Search for Matches.”
- You will see a list of all schools where your courses may transfer.
- Search to find **University of Illinois Urbana-Champaign** and click to view details.

Step 3: See Your Results

- After selecting Illinois’ percentage, you will see how your courses transfer to Illinois.
- Course numbers listed as 1 - - or 2 - - are considered elective credit within the stated subject area. This is because our campus does not have a specific equivalent course that corresponds to the transfer course.
- On the right side, you’ll find the option to View Program Information and Request Information.
- There may be some courses that have not yet been reviewed for transfer. You should save relevant information such as syllabi, course descriptions, and course outlines and may be asked to provide this information during the admissions/enrollment process.
- For more information on understanding your results and transferring credit use the provided QR code.

MEET WITH US!

If you are interested in meeting one-on-one with a member of our Transfer Admissions Team for a pre-admission advising session, you can sign-up for a meeting. We’ll discuss your interest in Illinois, the transfer application process, and your potential next steps toward enrollment.

QUESTIONS?

We’re here to help you take the next step.
